Ancient Vedic science takes USA by storm

13 May 2015, Capitol Hill, Washington D.C., USA

What started as an informational session on Third Eye Awakening at the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C., turned into an amazing demonstration that lasted 3 hours, when a 9-year-old child successfully demonstrated the existence of the Third Eye in human beings, by reading a book completely blindfolded, using her Third Eye!

Before a stunned audience of doctors, surgeons, medical researchers, bankers, businesspeople, investors and government officials, the girl read out whole sections from books, news articles, business cards and other content at a speed that can be considered good for a child of her age reading even with open eyes. All the readings were done using double blindfolds and eye pads to ensure that they were foolproof and credible.

Girl, 9, reads, plays games blindfolded at Vedic Temple in Montclair

Excitement in the media

The news was immediately picked up by the American media, with hundreds of newspapers and TV websites carrying the press release over the next two weeks.

A nine-year-old demonstrates her ability to read blindfolded at a Business Advocacy Summit May 13 in Washington, D.C. (Nithyananda photo)

WASHINGTON, D.C. — The Nithyananda Yoga Foundation organized a May 13 live demonstration of the powers of an Indian American youngster's yogic power learned through meditation and initiation at the Special Holistic School established by Sri Nithyananda Swami in Bangalore, according to a press release.

Yogamaatha, a nine-year-old girl from North Carolina, reportedly stunned an audience of more than 50 high profile professionals attending the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C. by reading fluently — blindfolded.

In a demonstration that lasted three hours, Yogamaatha was able to read aloud entire sections from news articles, business cards and other content supplied by the audience at a speed comparable to a nine-year-old reading with open eyes, added the release. Double blindfolds and eye pads were used on Yogamaatha to ensure that the readings were foolproof and credible, the release added.

In attendance were professionals from all over the U.S., including Purnima Voria, founder and CEO of the national U.S. Indian Chamber of Commerce, and Dr. Ritu Carpenter Soni, director of Sleep Lab, New York, as well as doctors, medical researchers, bankers, investors and government officials.

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind here.

Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul, a holistic school established by Sri Nithyananda Swami, a Hindu spiritual leader, said the release.

Unimaginable benefits for humanity

The scope and impact of awakening Third Eye vision on a mass scale are mind-boggling. For example, awakened blind persons would no longer need to use Braille to read. As Third Eye vision penetrates matter, awakened doctors would no longer have to rely on only X-rays to scan and understand exactly what was ailing their patients.

Blindfolded vision is only one of the early and visible side-effects of Third Eye Awakening. With deeper levels of awakening, it becomes possible to penetrate both space and time. This would mean that any impending calamity, from tsunamis to terrorist attacks, can be 'seen' by the awakened ones and averted well ahead of time.

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind (CLB) in Washington D.C. Vencer Cotton, a director at CLB, was amazed and intrigued by, "the extraordinary avenue that is available to those who do not have their physical eyes or have impaired vision."Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul, a holistic school established by Sri Nithyananda Swami, a popular Hindu spiritual leader. The school employs a system of education, which teaches the best of India's Vedic heritage alongside modern education. Yogamaatha is one of many children at Nithyananda Gurukul[SM] who have successfully demonstrated extrasensory powers, such as blindfolded reading. This science is also taught via the Third Eye Awakening Meditation[SM] in a safe and natural way to children and adults at Inner Awakening®, the 21-day personal transformation program conducted by Sri Nithyananda Swami several times a year in various locations around the world.

This special ability to read blindfolded comes from awakening what is called the "third eye" (called the "ajna chakra") – an energy center believed to exist between the eyebrows and is directly associated with the middle brain, especially the pineal gland. Children who have done the Third Eye Awakening Meditation[SM] at both Nithyananda Gurukul and Inner Awakening® exhibit higher levels of creativity, and the ability to absorb new concepts at a much faster rate than normal.

Scientific community enthusiastic

The medical, academic and scientific fraternity is highly excited and enthusiastic about the implications of this emerging science for various fields like education, training and forecasting, just to name a few. Representatives from various fields have come forward to support or facilitate further research for taking this science to the world.

Student of contemporary Vedic school

This wonderkid is one of hundreds of students at **Nithyananda Gurukul**[SM] in Bengaluru in India, a holistic education system established by young enlightened Indian yogi **His Holiness Paramahamsa Nithyananda** to bring back the best of India's Vedic heritage alongside modern education.

This exceptional school has won acclaim for molding a generation of super-achievers who have successfully demonstrated a range of extraordinary powers, and are using it to experience life in a richer way than we ever thought possible. Children with an awakened Third Eye exhibit extraordinary creativity, and the ability to absorb new concepts much faster than normal, say teachers at Nithyananda Gurukul.

"This demonstration may seem extraordinary, but we have just scratched the surface of what is possible. I think we are all going to be astounded by what we see happening in the future!", said one the teachers at Nithyananda Gurukul.

① पू. दिव्य महाराज द्वारा लिखकर दिया गया फ्रांसीसी (फ्रेंच) शब्द पढ़कर सुनाते हुए नित्यानंद ध्यानपीठम्, रामनगर, कर्नाटक गुरुकुल की छात्रा कु. कल्पलता (आयु १२ वर्ष), साथ में महंत श्री नित्य मोक्षप्रियानंद (शोधकर्ता एवं सूचनाजाल-निदेशक, नित्यानंद ध्यानपीठम्, कर्नाटक)

विशेषता : इस गुरुकुल में वैदिक शास्त्रानुसार शिक्षा प्रदान की जाती है, जिसमें आज्ञाचक्र की जागृति की जाती है। इसलिए ऐसी विद्या अवगत बच्चे ऐसी भाषा भी पढ़ सकते हैं, जो उन्हें अवगत नहीं है। वे सामान्य दो आंखों से नहीं, दिव्य दृष्टि अर्थात तीसरी आंख से देखते हैं।

Nithyananda Gurukul student amazes a gathering of Hindu saints and activists with her blindfolded reading ability at the Hindu Adhiveshan in Goa in June 2015. His Holiness Divya Maharaj wrote some words in French and she was able to pronounce them correctly, even though she doesn't know French.

Demonstration at Google, Bangalore, India

Mass Third Eye Awakening at Nithyananda Gurukul

In another revolutionary initiative in mystical sciences, His Holiness Paramahamsa Nithyananda has given mass initiation and training to the students of Nithyananda Gurukul.

Mass awakening has seen a spectacular rate of 100% in children below 14, with all children successfully identifying colors, shapes or words while blindfolded within 12 hours of initiation.

The children are encouraged to practice the Third Eye meditation for 21 days after initiation, to anchor the power permanently in their bio-memories.

'Inner Awakening is for everyone'

While 'superhuman' powers or *siddhis* were well known and employed in the ancient Vedic tradition of India, modern science is still struggling to get deeper insights into this field. Says Paramahamsa Nithyananda, 'Siddhis or miraculous powers are nothing but harnessing the natural laws which science has not yet understood.'

Keen to open up these powers for every individual on our planet, Paramahamsa Nithyananda is revealing this science in a safe and natural way to thousands of children and adults at **INNER AWAKENING®**, a 21-day personal transformation program he conducts several times each year.

In the following pages, he brings to light the facts, dimensions and truths of Third Eye Awakening, drawing both from his own enlightened insights and his deep understanding of the mystical sciences of ancient India.

Demonstrations during Singapore Tour

His Holiness Paramahamsa Nithyananda

His Holiness Paramahamsa Nithyananda, the visionary founder of Nithyananda Gurukul, is a young enlightened yogi with unimaginable superhuman powers.

Recognized today as a clear, legitimate, apolitical voice of Sanatana Hindu Dharma, he is revered as a living incarnation of superconsciousness by millions worldwide. As a Mahamandaleshwar (spiritual head) of Mahanirvani Peeth, the world's most ancient apex body of Hinduism, he is rapidly emerging as a powerful voice influencing Hindu philosophical thought.

Paramahamsa Nithyananda is a spiritual healer, an orator, a youtube icon, a prolific author and the spiritual head of an international socio-spiritual organization. He is also heir to a 5000-year-old lineage of enlightened yogic masters who live and train on the sacred mountain of Arunachala in Southern India.

Paramahamsa Nithyananda is an adept in the mystical yogic sciences whose fulcrum is the awakening of the mighty Kundalini, our own highest potential energy. In a landmark energy expression on our planet, he is awakening the Kundalini of hundreds of thousands of people, who are often sitting halfway across the globe, with just a glance, a touch or a wave of his hand.

With a vision to raise the consciousness of our planet, he is working tirelessly to open individuals and communities to their highest possibility - a life of completion, power, bliss and Advaita, Oneness.

""During my enlightenment experience at the age of twelve, I had a spontaneous Third Eye Awakening. With closed eyes, I was able to see 360 degrees around me on every side.

Today, you can see the children of my gurukul and thousands of others demonstrating the same power of extraordinary vision, due to the initiation into Third Eye Awakening!""

- His Holiness Paramahamsa Nithyananda

INTRODUCTION TO THIRD EYE AWAKENING℠

What is the Third Eye?

The Third Eye is one of the most discussed, debated and yet misunderstood of the extraordinary powers available to man.

Third eye is an intra-organ, a subtle or non-physical organ that all human beings possess. It is called the 'Third Eye', because the moment it is activated, you will be able to see without your two physical eyes. **Blindfolded reading is the first, visible side-effect of initiation into Third Eye Awakening.**

Almost all mystical traditions, from the world's most ancient Vedic civilization to the modern secret groups, have worked on awakening the Third Eye, because that is the easiest, most powerful way of awakening yourself to higher dimensions. Awakening the Third Eye is not a mystical process alone. Its effects can be directly experienced in your very physical plane. It has a clear defined power which can help you explore not just the mystical path and spiritual experiences, but make so many extraordinary things happen in your day-to-day life.

Gift from the Vedic tradition

The concept of Third Eye is the unique contribution of Vedic tradition, the oldest living civilization on our planet. Knowledge of the Third Eye was common in the Vedic civilization. The yogis of India have been practicing processes to awaken the Third Eye for thousands of years.

The Vijnana Bhairava Tantra, which was revealed by the Hindu god Lord Shiva to his consort Devi, gives a powerful technique for awakening the Third Eye:

tayaa-aapooryaasu moordhaantam bhanktvaa
bhrookshepa-setunaa | nirvikalpam manah kritvaa
sarva-urdhve sarvaga-udgamah ||31||

(Let form be filled with essence of life-breath to the crown of head. Cross the life-breath by penetrating with one-pointed attention at the bridge-like center of the eyebrows. Let mind be beyond the movement of thoughts [nirvikalpam manah]. In that all-rising supreme state (of Shiva), showers the light (vision) of all-pervadingness.)of head. Cross the life-breath by penetrating with one-pointed attention at the bridge-like center of the eyebrows. Let mind be beyond the movement of thoughts [nirvikalpam manah]. In that all-rising supreme state (of Shiva), showers the light (vision) of all-pervadingness.)

Third Eye: Command to the Cosmos

The location of the Third Eye is between the eyebrows. In Sanskrit, the Third Eye is known as the Ajna Chakra. 'Ajna' means 'command' and 'chakra' means 'wheel' or 'disk'. Ajna chakra is known as the Command chakra because all the different energy centers in your body are ruled by this chakra. It is the seat of the will-power. Ajna is a powerful chakra controlling mystical powers like clairvoyance, telepathy and command over natural forces.

Chakras: The key to our energetic health

Chakras are the subtle energy centers of our body. Chakras are visualized as spinning wheels or flowers with different numbers of petals. Chakras are not physical entities. They are located in our subtle body. But if we want to describe their location physically, we can say that they are located along the length of our spine, from the base of the spine to the top of the spine.

We have seven major chakras, which are Muladhara (root chakra), Swadishthana (sacral chakra), Manipuraka (navel chakra), Anahata (heart chakra), Vishuddhi (throat chakra), Ajna (brow chakra) and Sahasrara (crown chakra - technically not a chakra, but an open channel on the crown of the head, through which we receive cosmic energies).

Chakras are subtle energy powerhouses which are responsible for spinning and drawing the universal life-force (prana) into the body. They also act as batteries to store this energy and distribute it to the surrounding areas of the body.

Each chakra influences bodily functions near its region of the spine. The chakras roughly correspond to, and influence the activity of, the important glands of the body. They interact with the body's ductless endocrine glands and lymphatic system by feeding in good bio-energies and disposing of unwanted bio-energies. They are linked to the nerve ganglia (plexuses) of the body and influence nervous functions as well.

Thus, the chakras are influential at every level of our functioning. They are responsible for keeping the spiritual, mental, emotional and physical health of the body in balance.

- Chakras are subtle energy centers of our body
- We have seven chakras
- Chakras influence our physical, emotional and mental health
- Chakras are not visible to the naked eye
- The Ajna Chakra (Third Eye) is the ultimate chakra in your body

Reading with your eyes closed

One of the most visible expressions of Third Eye Awakening is the ability to read using the Ajna chakra instead of the physical eyes. As thousands are successfully demonstrating worldwide, it is possible to perform a range of tasks, including reading, painting, recognizing colors, shapes and objects - all while double blindfolded.

These demonstrations revolutionize our understanding of the actual role of the eye as the sole visual sensory organ of our body. It also brings us to the question of the differences in the processes involved in reading with the physical eyes and reading with the Third Eye.

Normal reading (reading with eyes) is a three-step process:

1. The physical eye perceives the written words
2. Information about the words is sent to the brain via the optic nerve
3. The brain cognizes and understands the words

During blindfolded reading (reading with Third Eye) only two steps happen:

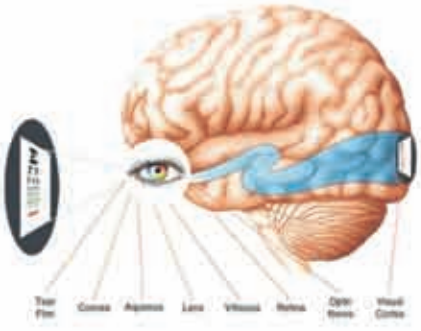

1 The Third Eye cognizes the written words
2. This cognition is transmitted to the brain

So the brain directly 'reads' the words without any help from the physical eyes.

Third eye Awakening is whole-brain activation

During blindfolded reading, the entire visual pathway and brain (excluding the eyes) are involved and activated, proving that it is indeed a process of 'seeing' and not any other brain activity.

Significantly, the Third Eye can play the role of **any** of the senses, depending on which part of the brain is activated during the process. **So we can hear with the ears closed, simply by activating the parts of the brain involved with hearing.** This can be demonstrated through FMRI and PET scans.

SEEING THROUGH PHYSICAL EYES

SEEING THROUGH THIRD EYE

INITIATION INTO THIRD EYE AWAKENING℠

What happens during Third Eye initiation?

The Third Eye can be awakened through SHAKTIPAT or initiation - the direct transmission of spiritual energy by an enlightened master or Avatar.

When a person sits in the Master's presence in a receptive and unclutched mood, and the experience is directly transmitted from the Master's bio-memory to his own bio-memory without any effort on the person's part, it is called Initiation.

As millions are discovering at Paramahamsa Nithyananda's life-changing programs and satsangs, an Avatar can, with a single gesture, cause a spontaneous, incredible transformation on every level. Miraculous healing of diseases, deeper understanding, mystical experiences, and the wiping out of lifetimes of karmas can happen in a matter of days - sometimes minutes.

Initiation is revered in the Vedic tradition as the ultimate gift that a master can confer upon his disciple on the spiritual path. During initiation, the superhuman powers already engraved in the master's bio-memory become engraved your own bio-memory.

In the ancient text Rudrayamala Tantra, Lord Shiva says:
The one who is not initiated does not attain liberation nor a better future. So, by all efforts, one should get initiated by the Guru.

Initiation works on three levels - the conscious mind, the unconscious mind and the physical body. When it works on all three levels, penetrating down to the physical level, it expresses as visible siddhis in you.

Science of Initiation

Initiation is a deeply mystical process, but it can be explained to some extent by the scientific principle of **Entanglement.**

Entanglement is a term used in quantum theory to describe the way that particles of energy/matter can become correlated to interact with each other in predictable ways, regardless of how far apart they are. This means that the state and actions of one of these particles can influence the state and actions of the other through the process of interference. Entanglement is the principle behind all processes involving energy transfer, including Third Eye Awakening, spiritual healing, kundalini awakening, levitation, teleportation, materialization and going beyond the need for food.

An enlightened being has the power to raise others into his own elevated state by the subtle pressure of his presence. When the mind of the receiver comes in touch with the no-mind (thought-free mind) of such a being, a process similar to entanglement happens, and thoughts subside in the mind of the receiver. Entanglement happens most effectively when the receiver is mentally in tune with the source and is open to receiving the energy.

During initiation, entanglement penetrates the bio-memory of the receiver. That is why initiation has lasting physiological and psychological effects.

Initiation and Kundalini Awakening

Research studies conducted at Nithyananda University indicate that initiation results in the spontaneous awakening of the **Kundalini,** our own highest inner potential energy. Research in neuroscience has proved that initiation floods the body and brain with Kundalini energy.

When Kundalini ascends the spine through the sushumna nadi (the main channel of subtle energy), it results in a huge energy influx into the brain. As it flows from the thalamus to the cortex, Kundalini sets up a powerful energy loop within the brain which awakens the latent, non-mechanical parts of the brain which we have never used before.

With increasing levels of coherence, the whole brain comes alive, turning into a superconductor of conscious energies that heal, empower and transform our lives. Enhanced awareness levels, greater creativity, bliss and health start to express in us.

When the Kundalini touches the Ajna chakra, it awakens the extraordinary abilities like Third Eye vision, levitation, teleportation, materialization and going beyond the need for food.

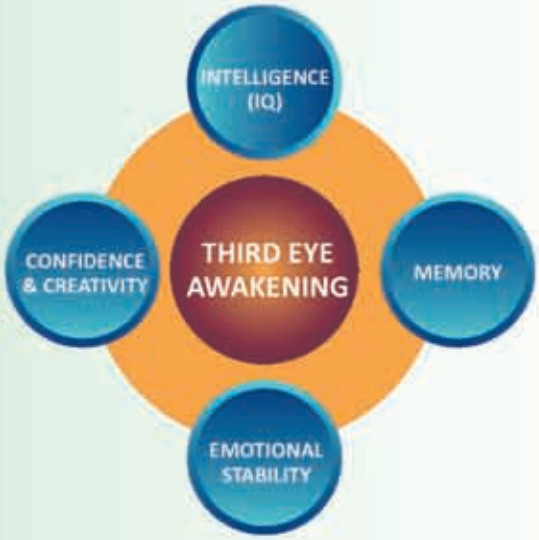

BENEFITS OF THIRD EYE AWAKENING℠

Benefits of Third Eye Awakening

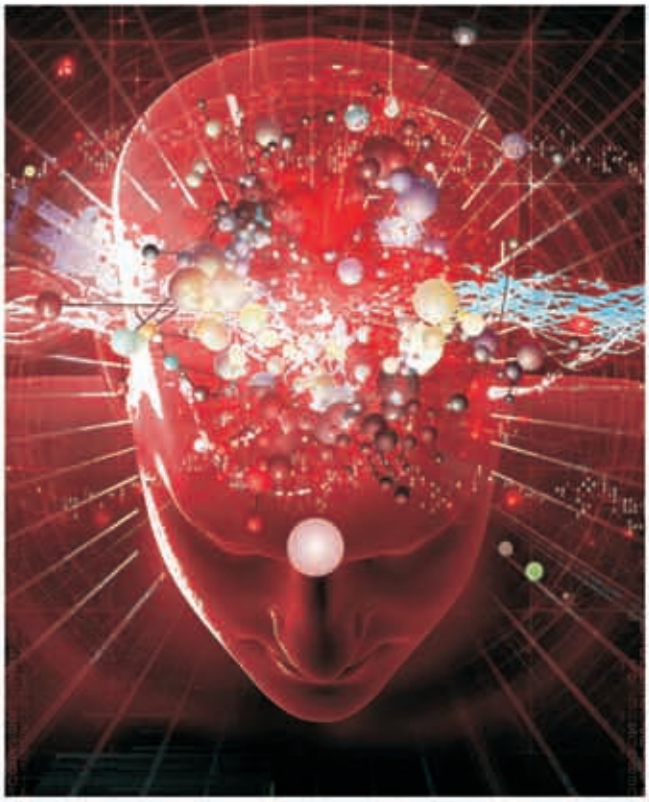

- Awakens high level of intelligence (rapid boost in IQ)
- Sharper, stronger memory
- High emotional stability
- Inner confidence
- Enhanced creativity

Benefits of Higher Levels of Third Eye Awakening

- Enhanced power of intuition
- X-ray vision
- Ability to read hidden content
- Ability to read from long distances
- Ability to access past & future events

DEEPER TRUTHS OF THIRD EYE AWAKENING℠

(This section has been compiled from Paramahamsa Nithyananda's talks on the subtle truths of Third Eye Awakening over the years)

Third Eye vision is 'Conscious Seeing'

Let us understand the deeper truths about the Third Eye.

Listen: your life is nothing but seeing.

If you can see something through the eyes, you can experience it with your physical body.

If you can see something through your mind, you can experience it, understand it, with your mental body.

If you can see something with your inner space, your consciousness, you can control it as the Lord of it.

Even blind people continue to see in their inner space. Whether you are blind or have physical eyes, you continue to see through your inner eyes.

Third Eye vision is nothing but 'Conscious Seeing'! It activates the non-mechanical parts of your brain. That is why you start experiencing extraordinary powers like telepathy, materialization, teleportation and clairvoyance.

Your personal door to the Cosmos

Third Eye is like a door to Cosmos. You can receive anything from the Cosmos though the Third Eye. Same way, you can send any command to the Cosmos through the Third Eye. Anything sent through the Third Eye to the Cosmos is immediately, immediately experienced!

Third Eye is not just the brow center; it is the Browsing Center also! Just like how you can upload or download anything through the Internet world through an internet browsing center, through the Third Eye you can download and upload anything in the Cosmos. It is the Cosmic browsing center. Any Akashic Records can be downloaded by you when you open your Third Eye.

Bridging Physical and Mystical Worlds

Third Eye is the bridge between the physical world and psychic and cosmic space. All the extraordinary powers, psychic powers, are achieved through Third Eye Awakening. All the extraordinary powers are lived when your Third Eye is completely awakened.

Understand: whatever you are seeing with these two eyes is not reality and not enough. Third Eye makes you see the higher reality externally in your day-to-day life, and internally in your life and death journey. Third Eye Awakening makes you immediately experience God. I can say God minus Third Eye is man; man plus Third Eye is God. The Third Eye is a direct bridge to God.

Third Eye is not just an eye; it is the very source of your Consciousness. If you align your thinking based on the principle of Advaita, Oneness, all your energy will become centered on Third Eye, all your energy will become stable in your Third Eye. The functioning of your Third Eye will enter into the next frequency.

Destroy Karmic Patterns and Incompletions

The more you use the Third Eye, the more the patterns and engrams engraved in your brain will start getting completed, because you are continuously working with Consciousness. The more you use Consciousness, the more you become Consciousness.

What we call karma is nothing but the deep-rooted unconscious patterns and incompletions which force you into a vicious cycle of fear, greed and pain for lifetimes. When you start using the powers of your Consciousness freely, the unconscious parts of your mind are brought under the light of your Consciousness, and they automatically dissolve, clearing the karmas.

Make Miracles your Lifestyle

Being a good human being is good, but it is not great! That is not the end of human possibilities. You are designed for extraordinary powers and capabilities.

You cannot talk about the power of seeing to a born-blind man. How much ever you talk, he won't be able to understand what is going to happen when he gains his vision. In the same way, I can't talk about the Third Eye to you till your Third Eye is opened! When you awaken the Third Eye, your whole life will be different. What ordinary people call intuition will become your lifestyle. What people normally call spiritual powers will become your very lifestyle!

FREQUENTLY ASKED QUESTIONS (FAQ)

Is Third Eye Vision a real spiritual power?

Third Eye Vision is a clear siddhi, a power, which comes to you by the awakening of your Third Eye with a proper process and the initiation of an incarnation. It is not street magic. It can be reproduced on thousands or millions. There is no fraudulence involved in it. There is no magic involved in it. It is the pure spiritual power, a mystical science.

Is Third Eye Awakening a permanent happening?

Yes. Once your Third Eye is awakened, it is permanent. If you have experienced Third Eye awakening earlier, but it went away after a while, understand it has never happened in you.

In what way is Third Eye Awakening useful to my normal life?

With Third Eye Awakening, you will see transformation in every area of your life. It will help you to achieve physical health. It will guide you to understand your physical or mental ailments and bring your body back to health, because the Third Eye is the seat of intuition and will-power.

It will help you have beautiful relationships, because you will just know the person, not his actions. You will able to speak into people's listening and help people achieve completion. You will be easily able to achieve anything you want with people.

Because you now have the key to command the Cosmos, you will be able to achieve anything you want in life - whether it is wealth or material comforts or success or enlightenment - because the Cosmos will honor your will!

Is Third Eye Awakening a Miracle or a Science?

When an experiment is successfully reproduced multiple times with the same result, it is called SCIENCE, not MIRACLE. Thousands of children and adults are successfully demonstrating the science of Third Eye Awakening at:

- Nithyananda Gurukul
- Nithyananda Bala Vidyalaya
- Kalpataru: Full-day Manifestation Program for adults
- eN-Memory : Full-day Memory Program for children
- Inner Awakening: 21-day transformational program for adults and children

Can Third Eye Awakening be dangerous in any way?

Like any other process, Third Eye Awakening can be dangerous if you try some techniques on your own, or under the guidance of a person who is not an adept in Third Eye Awakening. That can lead to adverse effects. So always make sure you are under the direct guidance of an enlightened being who is an adept in this science.

The techniques I am employing are most safe, because they are time-tested techniques drawn from the Vedic tradition, from the original source of this wisdom. Even though I have personally used these techniques and had the experience, they are completely authenticated by the Vedic tradition. They are from the Shaivaagamas - Lord Shiva's teachings to Devi. I have experimented with these techniques and modified them to suit the modern mind and body, to lead you to a safe and natural awakening in the most effortless way.

So these techniques are foolproof, with no negative side-effects. The only side-effects you will experience are bliss, intelligence, power and enlightenment!

AWAKENING YOUR THIRD EYE

How are extraordinary powers awakened?

Even though they are called extraordinary powers, siddhis or yogic powers are not really extraordinary. They are meant to be experienced by each of us; they are our birthright as human beings.

Like all siddhis, Third Eye Awakening is based on natural laws which modern science doesn't yet understand, though these laws were well-understood among the enlightened scientists of the Vedic times. It all just depends on the vastness of your information; the amount of subtle information that you can handle.

Intuition is nothing but being able to see a much wider range of space or time. Einstein explored this truth to some extent in his Theory of Relativity.

I can give you a very physical example:

Let us say that a person is standing in the middle of a road and looking towards both sides. How far he can see on both sides? He may be able to see up to a maximum distance pf 100 meters or 200 meters on each side.

But if there is another person standing on the 10th floor of a nearby building and looking at the same road below, he will be able to see one kilometer on this side, one kilometer on that side. So when this person says that he sees a car coming down the road, the person who is standing on the ground is naturally going to think that this person is seeing something that is not there! And in a few minutes, when he also sees the car, he is going to think, 'Wow! The person standing in the building can predict the future! He has the power of intuition! He has a siddhi, a miraculous power!'

Past and future are not absolute terms. In the same way,

distance is also not absolute. Actually, it is just a matter of expanding your vision to include more time and space. When your Third Eye is awakened, you will be able to see everything from the higher plane. So you will be in tune with the actual reality and can access what we normally call 'past' and 'future'.

How can I awaken my Third Eye?

The Third Eye awakens the moment you are initiated by an Avatar, whether you immediately experience it or not.

During initiation, the kundalini rises up your spine. When it touches your Third Eye, it is permanently activated. When you keep your awareness continuously on the Third Eye, it remains activated in a way you can physically experience. If you leave the body while your awareness is on the Third Eye, you will become enlightened. If it is awakened even while you are alive, you will have so many other benefits.

Third Eye Awakening is possible for everybody. I am not demonstrating these extraordinary powers as my glory; I am demonstrating them as your possibility!

What is blocking my awakening?

The Third Eye is blocked by nothing but your decision to be comfortable with your small identity and small life. It is the hard truth!

You feel that you continuously need to protect yourself against the Unknown, because you think you are powerless, you are weak, you are ignorant. Building your identity based on such wrong, misguided information is ego. Continuing to carry on with the same ego is arrogance. These two block your Third Eye.

When you open yourself to your own highest possibilities without fear or doubt, you will simply, smoothly, experience all the extraordinary powers. That is why children are able to express these powers far more easily than adults! So I have now evolved this technique to the next level, where it becomes effortless even for adults to experience and radiate the powers of the Third Eye.

Practice to help Awaken the Third Eye

Sit in a comfortable position with your head, neck and spine in a straight line. Relax and take a few deep breaths.

Step 1 (with open eyes) : 5 min

Bring your attention to the area in between your eyebrows. Visualize that your Third Eye is open; you are looking through the Third Eye. It may be a little difficult at first, but you will get it within a few minutes.

Step 2 (with closed eyes) : 3 min

Close your eyes and visualize an intense golden light entering into your body from the sky. The light is entering your head and getting centered, functioning, active on your Third Eye.

Step 3 (with open eyes) : 3 min

Now, with open eyes, look through your Third Eye at my Third Eye, the spot where I am wearing the kumkum, the red dot. Continue to gaze at my third eye through your Third Eye. Visualize that you have a red color hole between your eyebrows and intensely look at my Third Eye.

Step 4

Relax. Close your eyes.

If you wish, you can rest wherever you are sitting,

"My Third Eye Awakening experience" (Sharing)

After Swamiji awakened my Third Eye, I am able to read comfortably even when blindfolded. The most surprising thing is that I am able to read languages like Tamil and Gujarati, which I normally don't know how to read! After these experiences, I feel that I have transformed a lot.

Ma Prajnana, Bengaluru, India
Nithyananda Gurukul student

It all started with a clear, intense sensation between the eyebrows that made the entire body feel light. A cool intense energy was experienced the moment Swamiji started the initiation, which got profound as the time passed. It became a powerful experience, and what felt like a few minutes of an outer body experience (OBE) turned out to be a good 40 minutes. I never expected that this will happen!

Shaktivel, Mumbai, India
Shivoham Inner Awakening participant, May 2015

I went up on stage after the initiation and was shocked to find that I could read a few words right in front of Swamiji. And it wasn't just me! Close to 600 people had Third Eye Awakening from Swamiji that day. It is unimaginable what Swamji is doing for the revival of our ancient mystical sciences and for the world.

Poornima (Ma Nithya Devi), Singapore
Shivoham Inner Awakening participant, May 2015

After Swamiji's initiation, I am able to recognize shapes and letters. I am a sketch artist, and I am enjoying drawing while blindfolded and seeing if all the elements are in the right place!

Anne-Marie Casu, France
Shivoham Inner Awakening participant, May 2015

As soon as I started gazing into Swamiji's Third Eye, I felt a pulsation, like a heartbeat, in the area of my own Third Eye. When He instructed us to close our eyes, the pulse intensified, and I saw some swirling golden light in the center of my inner vision.

After the meditation, I was surprised to be able to immediately find and accurately trace shapes on a page while blindfolded, and also my intuition increased a lot. Also, since Swamiji awakened my Third Eye, I no longer need to turn on the lights to do things like get ready for bed or see where I'm going at night.

So if you're thinking of going to Inner Awakening, just jump into it- these 21 days will be the best, most transformational, awe- inspiring days of your life. Swamiji's presence is priceless - it has to be experienced!

Ma Nithya Sudevi, USA
Shivoham Inner Awakening participant, May 2015

After the Third Eye Awakening initiation from Swamiji, not only are the Balasants (Gurukul students) reading blindfolded in English, they have started reading in languages which they cannot read even with their eyes open - like German, Hindi, etc! Also, some of them are able to comfortably able to read off a sheet of paper which was kept elsewhere!

One more inspiring event which happened this week was that a lot of fifth graders got promoted to tenth grade, and are preparing for the board exam! Due to the awakening of the Third Eye, unimaginable intelligence has opened up in all Balasants.

Sharanya Sridhar, Bengaluru, India
Nithyananda Gurukul student

When Swamiji initiated us, I immediately noticed that with the children in the hall, it seemed like it just started happening on its own! Some of them were even reading complete sentences. Children do not have the self-doubt that adults have, so it simply happens for them. Swamiji has opened up this science for everybody; now it is up to each of us to open ourselves and receive it fully.

Ananda Komala, Canada
Shivoham Inner Awakening participant, May 2015

APPENDIX

A few samples of the press releases carried in print media and television channel websites about the Third Eye Awakening demonstration by a Nithyananda Gurukul student at the 2015 Business Advocacy summit at Capitol Hill in Washington D.C., USA.

Links to articles and list of media carrying the news have also been included.

Nine-Year-Old 'Reads' Blindfolded at Business Advocacy Summit

India West Staff | Posted: Thursday, June 4, 2015 12:15 pm

WASHINGTON, D.C. — The Nithyananda Yoga Foundation organized a May 13 live demonstration of the powers of an Indian American youngster's yogic power learned through meditation and initiation at the Special Holistic School established by Sri Nithyananda Swami in Bangalore, according to a press release.

Yogamaatha, a nine-year-old girl from North Carolina, reportedly stunned an audience of more than 50 high profile professionals attending the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C. by reading fluently — blindfolded.

In a demonstration that lasted three hours, Yogamaatha was able to read aloud entire sections from news articles, business cards and other content supplied by the audience at a speed comparable to a nine-year-old reading with open eyes, added the release. Double blindfolds and eye pads were used on Yogamaatha to ensure that the readings were foolproof and credible, the release added.

blind

A nine-year-old demonstrates her ability to read blindfolded at a Business Advocacy Summit May 13 in Washington, D.C. (Nithyananda photo)

In attendance were professionals from all over the U.S., including Purnima Voria, founder and CEO of the national U.S. Indian Chamber of Commerce, and Dr. Ritu Carpenter Soni, director of Sleep Lab, New York, as well as doctors, medical researchers, bankers, investors and government officials.

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind here.

Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul, a holistic school established by Sri Nithyananda Swami, a Hindu spiritual leader, said the release.

Nine-Year-Old Reads Blindfolded at Business Advocacy Summit

Posted: May 23, 2015 11:49 PM IST

On May 13, Nithyananda Yoga Foundation organized a live demonstration of powers of a youngster's yogic power learned through meditation and initiation at Special Holistic School established by Sri Nithyananda Swami in Bangalore, India.

Yogamaatha, a nine-year-old girl from North Carolina, stunned an audience of more than 50 high profile professionals attending the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C. by reading fluently -- blindfolded.

In a demonstration that lasted three hours, Yogamaatha was able to read aloud entire sections from news articles, business cards and other content supplied by the audience at a speed comparable to a nine-year-old reading with open eyes. Double blindfolds and eye pads were used on Yogamaatha to ensure that the readings were foolproof and credible.

In attendance were professionals from all over the US, including Purnima Voria, Founder and CEO of National US Indian Chamber of Commerce, and Dr. Ritu Carpenter Soni, Director of Sleep Lab, New York, as well as doctors, medical researchers, bankers, investors and government officials.

To view the live demo: http://youtu.be/feivqctJhW8

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind (CLB) in Washington D.C. Vencer Cotton, a director at CLB, was amazed and intrigued by, "the extraordinary avenue that is available to those who do not have their physical eyes or have impaired vision."

Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul, a holistic school established by Sri Nithyananda Swami, a popular Hindu spiritual leader. The school employs a system of education, which teaches the best of India's Vedic heritage alongside modern education. Yogamaatha is one of many children at Nithyananda Gurukul[SM] who have successfully demonstrated extrasensory powers, such as blindfolded reading. This science is also taught via the Third Eye Awakening Meditation[SM] in a safe and natural way to children and adults at Inner Awakening®, the 21-day personal transformation program conducted by Sri Nithyananda Swami several times a year in various locations around the world.

This special ability to read blindfolded comes from awakening what is called the "third eye" (called the "ajna chakra") – an energy center believed to exist between the eyebrows and is directly associated with the middle brain, especially the pineal gland. Children who have done the Third Eye Awakening Meditation[SM] at both Nithyananda Gurukul and Inner Awakening® exhibit higher levels of creativity, and the ability to absorb new concepts at a much faster rate than normal.

"This blindfolded reading demonstration may seem extraordinary, but we have only just scratched the surface of what is possible," says Sri Nithya Advaithananda, a teacher at Nithyananda Gurukul. "The 'Third Eye Awakening Meditation[SM]' taps into the brain's full potential, and the capability to read blindfolded is one side effect. With deeper levels of awakening, the Vedic scriptures say that we can eventually access information beyond the normal perception of our five senses."

While "superhuman" powers or siddhis were well known and employed in the ancient Vedic tradition of India, modern science is still struggling to get deeper insights into this field. Explains Sri Nithyananda Swami, "Siddhis or miraculous powers are nothing but harnessing the natural laws, which science has not yet understood."

Yogamaatha will be demonstrating her ability to read while blindfolded during a tour around the US:http://innerawakening.org/thirdeyereading

Nine-Year-Old Reads Blindfolded at Business Advocacy Summit

Posted: May 23, 2015 11:49 PM IST

On May 13, Nithyananda Yoga Foundation organized a live demonstration of powers of a youngster's yogic power learned through meditation and initiation at Special Holistic School established by Sri Nithyananda Swami in Bangalore, India.

Yogamaatha, a nine-year-old girl from North Carolina, stunned an audience of more than 50 high profile professionals attending the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C. by reading fluently -- blindfolded.

In a demonstration that lasted three hours, Yogamaatha was able to read aloud entire sections from news articles, business cards and other content supplied by the audience at a speed comparable to a nine-year-old reading with open eyes. Double blindfolds and eye pads were used on Yogamaatha to ensure that the readings were foolproof and credible.

In attendance were professionals from all over the US, including Purnima Voria, Founder and CEO of National US Indian Chamber of Commerce, and Dr. Ritu Carpenter Soni, Director of Sleep Lab, New York, as well as doctors, medical researchers, bankers, investors and government officials.

To view the live demo: http://youtu.be/feivqctJhW8

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind (CLB) in Washington D.C. Vencer Cotton, a director at CLB, was amazed and intrigued by, "the extraordinary avenue that is available to those who do not have their physical eyes or have impaired vision."

Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul, a holistic school established by Sri Nithyananda Swami, a popular Hindu spiritual leader. The

school employs a system of education, which teaches the best of India's Vedic heritage alongside modern education. Yogamaatha is one of many children at Nithyananda Gurukul[SM] who have successfully demonstrated extrasensory powers, such as blindfolded reading. This science is also taught via the Third Eye Awakening Meditation[SM] in a safe and natural way to children and adults at Inner Awakening®, the 21-day personal transformation program conducted by Sri Nithyananda Swami several times a year in various locations around the world.

This special ability to read blindfolded comes from awakening what is called the "third eye" (called the "ajna chakra") – an energy center believed to exist between the eyebrows and is directly associated with the middle brain, especially the pineal gland. Children who have done the Third Eye Awakening Meditation[SM] at both Nithyananda Gurukul and Inner Awakening® exhibit higher levels of creativity, and the ability to absorb new concepts at a much faster rate than normal.

"This blindfolded reading demonstration may seem extraordinary, but we have only just scratched the surface of what is possible," says Sri Nithya Advaithananda, a teacher at Nithyananda Gurukul. "The 'Third Eye Awakening Meditation[SM]' taps into the brain's full potential, and the capability to read blindfolded is one side effect. With deeper levels of awakening, the Vedic scriptures say that we can eventually access information beyond the normal perception of our five senses."

While "superhuman" powers or siddhis were well known and employed in the ancient Vedic tradition of India, modern science is still struggling to get deeper insights into this field.

Explains Sri Nithyananda Swami, "Siddhis or miraculous powers are nothing but harnessing the natural laws, which science has not yet understood."

Yogamaatha will be demonstrating her ability to read while blindfolded during a tour around the US: http://innerawakening.org/thirdeyereading

Later, Yogamaatha also demonstrated her powers at the Columbia Lighthouse for the Blind (CLB) in Washington D.C. Vencer Cotton, a director at CLB, was amazed and intrigued by, "the extraordinary avenue that is available to those who do not have their physical eyes or have impaired vision."

Yogamaatha acquired this power through meditation and initiation at Nithyananda Gurukul℠, a holistic school established by Sri Nithyananda Swami, a popular Hindu spiritual leader. The school employs a system of education, which teaches the best of India's Vedic heritage alongside modern education. Yogamaatha is one of many children at Nithyananda Gurukul℠ who have successfully demonstrated extrasensory powers, such as blindfolded reading. This science is also taught via the Third Eye Awakening Meditation℠ in a safe and natural way to children and adults at Inner Awakening®, the 21-day personal transformation program conducted by Sri Nithyananda Swami several times a year in various locations around the world.

This special ability to read blindfolded comes from awakening what is called the "third eye" (called the "ajna chakra") – an energy center believed to exist between the eyebrows and is directly associated with the middle brain, especially the pineal gland. Children who have done the Third Eye Awakening Meditation℠ at both Nithyananda Gurukul and Inner Awakening® exhibit higher levels of creativity, and the ability to absorb new concepts at a much faster rate than normal.

"This blindfolded reading demonstration may seem extraordinary, but we have only just scratched the surface of what is possible," says Sri Nithya Advaithananda, a teacher at Nithyananda Gurukul. "The 'Third Eye Awakening Meditation℠' taps into the brain's full potential, and the capability to read blindfolded is one side effect. With deeper levels of awakening, the Vedic scriptures say that we can eventually access information beyond the normal perception of our five senses."

While "superhuman" powers or siddhis were well known and employed in the ancient Vedic tradition of India, modern science is still struggling to get deeper insights into this field.

Explains Sri Nithyananda Swami, "Siddhis or miraculous powers are nothing but harnessing the natural laws, which science has not yet understood."

Nine-Year-Old Reads Blindfolded at Business Advocacy Summit

Posted: May 23, 2015 11:49 PM IST

On May 13, Nithyananda Yoga Foundation organized a live demonstration of powers of a youngster's yogic power learned through meditation and initiation at Special Holistic School established by Sri Nithyananda Swami in Bangalore, India.

Yogamaatha, a nine-year-old girl from North Carolina, stunned an audience of more than 50 high profile professionals attending the 2015 Business Advocacy Summit at Capitol Hill in Washington D.C. by reading fluently -- blindfolded.

In a demonstration that lasted three hours, Yogamaatha was able to read aloud entire sections from news articles, business cards and other content supplied by the audience at a speed comparable to a nine-year-old reading with open eyes. Double blindfolds and eye pads were used on Yogamaatha to ensure that the readings were foolproof and credible.

In attendance were professionals from all over the US, including Purnima Voria, Founder and CEO of National US Indian Chamber of Commerce, and Dr. Ritu Carpenter Soni, Director of Sleep Lab, New York, as well as doctors, medical researchers, bankers, investors and government officials.

DAILY BULLETIN

SPIRITUALITY

Girl, 9, reads, plays games blindfolded at Vedic Temple in Montclair

By Grace Wong, Inland Valley Daily Bulletin

MONTCLAIR — A small girl wearing a maroon dress with gold embroidery held up two cotton pads to her eyes.

She was then blindfolded with a white eye mask, an orange piece of cloth and another white bandage, fitting on a shoe way too big for her. Yogamaitha (the 9-year-old North Carolinian's spiritual name) was handed business cards, books and words written on a small whiteboard for her to read, and to the audience's amazement, she read them all.

"Wow," said one audience member shaking his head after she read his business card. "That's amazing."

The demonstration was part of Yogamaitha's international tour, which aims to raise awareness about the extraordinary powers that people can gain through meditation and initiation at Nithyananda Grandeur, a holistic school established by Sri Nithyananda Paramahamsa, a popular Hindu spiritual leader, according to a press release from the Vedic Temple in Montclair.

The method is called the "Third Eye Awakening Technique" and is open to both children and adults. The Vedic Temple will also host a 21-day yoga and meditation program in July.

The event Monday afternoon was attended only by a handful of people and began with an introduction by Viveqa, the vice chancellor of Nithyananda University, who hosted the event.

"Be prepared to be amazed," she said before showing a video about Sri Nithyananda Paramahamsa Nithyananda, who is recognized as a living incarnation by the followers of Saiva Hindu Dharma, or the ancient Hindu religion of Shaivism.

The video showed Nithyananda explaining what Third Eye Awakening was and a presentation followed it, explaining how it can be achieved.

But the star of the show was Yogamaitha, who not only read blindfolded, but played tic-tac-toe and smashed the arrangement of plastic doughnuts. Her mother talked about how the Third Awakening had helped her daughter be a more positive and confident person.

"Our hope is that people will come and visit this initiation for themselves and their children," Viveqa said. "We want to raise them up and become better human beings, for society to elevate and reach a higher state of consciousness."

3 KIDS AMAZE WITH BLINDFOLD READING

6/10/2014

LOS ANGELES (A Three young kids from Los Angeles and North Carolina stunned audiences in the cities of Montclair, Toronto, Anaheim, Ontario with their ability to read blindfolded. Each child revealed that yogic power with a yogic eyes while they interacted with the audience, who were encouraged to actively participate in the demonstration to ask questions and enjoy the process itself. Everyone walked in with a doubt!

They wished out amazed at the powers displayed, and convinced at the huge impact it will have for the world. The three children practiced these powers through the the Third Eye awakening process and initiation by Paramahamsa Nithyananda, an enlightened master from India. One of the kids, Ivy Yogamaitha (9), was initiated at the Nithyananda Summit, a special holistic school established by Paramahamsa Nithyananda in Bangalore, India. The two other kids, Vaibhav (6) and Isha (4), were initiated at the three-day program presented by Nithyananda University, a 21-day yoga and meditation program for both adults and kids.

These kids are not the only ones – hundreds of kids from around the world who attend Nithyananda Gurukul or attended the three-day Awakening program in India are expressing this same power at varying levels – from seeing shapes and colors while blindfolded, to being able to read while blindfolded, to even playing tag blindfolded.

Parents of the yogic kids expressed their personal amazement at the ability—what first started as skeptical curiosity but one post-engagement as they noticed the kids were not only reading blindfolded, but were also expressing much more confidence, joy, intelligence and intuitive abilities. Ivy Yogamaitha's mother shared, "Yogamaitha is showing me everyday what it means to believe in yourself and know that you can do anything. The way she approaches life or tackles problems is so beautiful and inspiring. She expresses so much intelligence and maturity; she is able to learn new subjects so quickly after the initiation. We know that when we enrolled her in the Gurukul, Swamiji was going to teach her to be successful and a better human being but we never expected this."

Event organizers explained that research to understand the science behind this phenomenon has just started in India. "The scientific community and public will be equally impressed with the findings as they are with the expression of power itself," said Isha Nithya Vimalananda, vice chancellor of Nithyananda University and the master of ceremonies at one of the events. She further stated, "Swamiji says that blindfold reading is just one of the abilities expressed and not the goal. Once you awaken your third eye, the goal is to live the life you want as you want it."

In his spiritual discourses Paramahamsa Nithyananda explains – "The third eye, also called the Ajna Chakra, is located between the eyebrows and is considered as a gateway to higher consciousness. Almost all religions and mystical traditions have worked on the third eye. Awakening the third eye is not mystical alone. It can be directly experienced in the physical plane. It can help with the joys day to day life. What we see with our regular two eyes is not reality. The third eye makes us see the higher reality.

Experience life in a richer way, from wherever possible. Work on your third eye. Have intuition and see to it your third eye is awakened. By not having the third eye awakened, you are missing something very obvious in life. It's like if the next level iPad is released and you are not having it—you are missing out."
